

The Didsbury Pioneer

East Didsbury Rural Electric Co-Operative Ass'n Formed

A public meeting was held in the Mountain View hall, east of Didsbury, on Wednesday afternoon, November 17th, for the purpose of deciding if it was possible to form a rural electrification co-operative association to supply electric power to farms east of Didsbury.

The meeting voted almost unanimously in favor of forming such an association and the registered name will be East Didsbury Rural Electrification Co-Operative Association.

A delegation from the north west corner of the proposed area was present and asked to be included in the proposed electric coop.

A permanent board of directors, consisting of seven members, was elected as follows:

G.S. Tighe, Ken Burns, Floyd Ahlgrim, Loyal Snyder, C.P. Reimer, J.W. Fulkert and O.W. Aenshus.

The above board of directors will make a canvass of the district in an endeavor to sign up as many as possible in the area that has already been mapped out, and a report will be submitted at a future meeting.

Mrs. John Wiebe Passes in Calgary At Age of 59 Years

Mrs. John (Heien) Wiebe, a former resident of the Didsbury district, passed away in a Calgary hospital on Wednesday, November 17th, at the age of 59 years.

Mrs. Wiebe came to Didsbury from Russia 23 years ago and had lived here until a few months ago, when she moved to Calgary.

She was predeceased by her husband some years ago.

Surviving are three sons, John of Didsbury, William of Gremora, and George of Calgary; four daughters, Mrs. Helen Penner and Mrs. Mary Brown, both of Didsbury, and Mrs. Ann Helms and Mrs. Louise Bammel, both of Calgary; and eight grandchildren.

Funeral services were held Friday, November 19, from the New Berghall Church, with Rev. J. Sawatzky and C.G. Neufeld officiating.

Interment followed in Last Best cemetery with Didsbury Funeral home in charge of arrangements.

WEST NOTES

Mr. and Mrs. L. Papke were supper guests on Monday with Mr. and Mrs. P. Lauff.

The five Willing Workers who are in the play "In Doubt About Daisies" practised at the home of Mrs. R. Sutherland last Tuesday.

Mr. and Mrs. R. Befus, Mr. and Mrs. C. Befus and Mr. and Mrs. Ed Befus were all Calgary visitors on Saturday.

Mr. and Mrs. C.S. Hogg were supper guests with Mr. and Mrs. G. Befus on Sunday.

Mrs. Davidson of Sundre visited with her daughter, Mrs. G. Byrn, on Thursday and Friday.

Basic Herd Tax Regulations Announced in Gov't Directive

At last the "basic herd" principle of income taxation has become law. The culmination of years of effort by stockmen all across Canada, led by the Western Stock Growers' Association, has been reached with the release of Directive No. 234 by the taxation division of the Department of National Revenue at Ottawa.

A copy of the directive was received last week by Kenneth Copple, secretary of the Western Stock Growers' Association. A covering letter states that other copies will be sent shortly to livestock associations, and that as soon as they will be dispatched to all district offices of the income tax division, and from there to all taxpayers who have inquired in the past about the basic herd regulations or who may inquire in the future.

The letter states that the direc-

KNOX UNITED CHURCH W.M.S. MEETS MONDAY, NOVEMBER 15

The W.M.S. of Knox United Church met on Monday evening, November 15, at the home of Mrs. Dr. Evans, 10 members being present. Mrs. R. Clarke took the Devotional period and Mrs. J. Bainbridge the study. At the close of the meeting Mrs. Evans served lunch.

The December meeting will be on the 15th at the home of Mrs. Ruth Ekel.

WESTCOTT NOTES

The many friends of little Gerald Dubois will be glad to hear that he is expected home from the hospital soon. Gerald has been confined to a Calgary hospital, for many weeks because of a broken hip.

Mrs. Otto Folkman spent several days last week in Calgary.

Westcott folks were well represented at the Evans-Russell wedding dance at Rugby and all report having a wonderful time.

Mr. David Adams spent the week end at the Earl Klinkh home.

Mr. John Jacobson has accepted employment in Calgary.

Mr. Dan Folkman of Red Deer spent the week end at his home here.

Mrs. Gillies Sr. of Elkton and Mrs. H. Goetjen spent Saturday afternoon with Mrs. Allan Vipond.

Mr. and Mrs. Linden Jacobson were Calgary visitors last Monday.

Westerdale Willing Workers Purchase Fixtures for Hall

Fourteen members attended the Willing Workers meeting held at the home of Mrs. F.J. Jackson on November 10. Roll call was answered with a laundry list. A report was submitted showing that four chairs, a piano lamp and 12 yards of coco fibre matting had been purchased for the hall. It was agreed that the Club purchase ten decks of cards for use at the whist parties. Also a floor mop for the hall.

Mrs. A. Buckley gave a most interesting and amusing paper on the Alcan Highway, a route recently travelled by her niece.

The tea money draw prize was won by Mrs. Herbert.

The December meeting will be held at the home of Mrs. J. P. Schrader, with a gift exchange, valued at \$50 to \$1 being held.

Mr. and Mrs. Gunner Nelson of Oids were Sunday evening visitors at the home of Mr. and Mrs. S. Jackson.

Mr. Bill Wigley, who is employed at Calgary, spent the week end in the district.

Rev. J. W. Bainbridge of Knox United Church, Didsbury, has resumed Sunday Services at the Westerdale church. These services will be held every Sunday afternoon at 3 p.m., if road conditions permit.

Didsbury Pioneer Has New "Dress"

The Didsbury Pioneer has made another step toward complete recovery from its fire this spring due to the arrival of a new font of intertype matrices, which in the printing trade is called "Regal with Calro Bold." These matrices are the letters used in our intertype machine to produce the type which you are now reading, and you must admit they are an improvement over the type faces which have appeared in this paper for the last few months.

Regal with Calro Bold is one of the latest newspaper type faces to be manufactured by Intertype Corporation and we hope our readers will appreciate the improvement.

The four inside pages of "The Pioneer" have been set with the old type face and readers can compare these two type faces at their leisure.

We have a new font of modern 12 point matrices on order for ad work, and when these arrive The Didsbury Pioneer plant will be back to normal as far as efficiency of production is concerned.

Board of Trade to be Formed In Town; Meeting Nov. 26th

A preliminary meeting of 43 business men and women of the Town of Didsbury was held in the Lions Hall on Monday evening, November 22, to discuss the advisability of forming a Board of Trade. Mr. Wm. H. Payne was appointed Chairman of the meeting and Mr. A.W. Reimer secretary pro-tem.

In his opening remarks Mr. Payne discussed the need of reorganizing a Board of Trade and gave a few examples of the projects required in the town, which only such an organization could proceed with. He then introduced the guest speakers of the evening, Mr. Earl Robertson, past president of the Calgary Board of Trade, Mr. E.D. McGreer, secretary, and Mr. Wm. Graburn, vice-president of the Calgary Board of Trade.

Mr. Robertson spoke on the history of the Board of Trade. The first such organization was formed in Halifax in 1766. No other Board was formed until 1896, when Quebec City realized the need. In 1890 Calgary's first Board of Trade was formed, with 40 charter members, and it now has a membership of 700, with an additional 100 agricultural members.

Mr. Graburn advised a Board to keep in touch with other similar organizations, to call in outside spe-

ATOMIC POWER UNLEASHED

Navy ships off Bikini are barely visible against the towering mushroom of smoke from the atomic bomb as science demonstrates once more the limitless power hidden in the universe. More colored photos of the atom bomb in action are included in the sound color film, "God of the Atom," produced at the Moody Institute of Science by Dr. Irwin A. Moon, which will be shown at 8 p.m. Sunday, November 28, in the United Missionary Church, Didsbury.

Board of Trade to be Formed In Town; Meeting Nov. 26th

and to ask other Boards for aid and advice if necessary.

Mr. McGreer gave some hints on the organization. There should be a membership chairman, a committee to draft a suitable constitution, and a committee to formulate a program of work for the coming year.

The Chairman then called for a question period, explaining that no other organization could offer the advantage of freedom of speech to such an extent as this one. He then gave some examples of projects which could and should be dealt with at once, such as the state of the waterworks development in the town, the condition of the approaches to the town and market roads in the surrounding districts.

The discussion which followed showed that all present considered formation of a Board of Trade advisable and a motion to this effect was put to the meeting and carried.

A committee of five members, comprising T. Evans, chairman, L. Berscht, C.P. Niehoff, G. Thring and Bert Preost was appointed to consider and nominate a slate of officers to be presented at a meeting to be held in the Lions hall on Friday, November 26th, at 8 p.m., when election of officers will be held.

Bill Payne Heads Hockey League

At a meeting held in the S. W. Miller & Co. building last Wednesday, the new South Central Alberta Hockey League was formed. Delegates from Didsbury, Carstairs and Oids were present and the following executive was elected:

President, Bill Payne, Didsbury; vice-president, Gordon Tronner, Carstairs; secretary - treasurer, Stan Hodgson, Oids; executive, S.W. Miller, Oids; J.T. Evans, Didsbury; Ronnie Liesemer, Carstairs.

From the meeting an invitation was extended to Red Deer, Trochu, and Hillhurst Hustlers to have their delegates present at a meeting to be held November 19th when the final formation of the league would be decided.—Oids Gazette.

tain 12 feet long and 28 feet high was designed, which was so sheer that with one kind of lighting the audience could see steamboats racing across it and with another they could see the stokers in the boiler rooms and the captains on the deck.

Such production problems as the manipulation of four 350-lb. umbrellas in the "Evening Star" number and the reproduction of a Puck fairy in the County Kerry in which a Billy goat was crowned Ireland's only king were combination products of the studio's imagination and a few magazine articles from the research department.

The municipal road outfit has graded up the road from Miss Willson's residence west to the town boundary.

Crystal Dairy Wins Butter Championship at Toronto

RUGBY A.F.U. MEETING

The last meeting of the Rugby A.F.U. was held at the Lloyd Chandler home on October 21. A draft constitution for the amalgamated organization was read and discussed.

The next meeting will be held at Albert Krebs on December 1st when a delegate to the convention in Calgary will be elected. The district director will not be able to attend as planned.

Ice Making Starts At Memorial Arena

While the weather so far this fall has been too mild to permit much ice making at the new Memorial Arena, the new caretaker, Mr. Ray Reese, has been doing his best to get started and has already prepared the ground and applied several light floodings during the frosty periods of the dark hours. Should a fairly cold spell follow the chinook winds of this week, it would not be long before sufficient ice could be made to allow skating to start in Didsbury.

In previous years the making of ice in Didsbury under such moderate temperatures as have prevailed this fall would have been impossible. However, due to the erection of the new covered arena, frosty weather of any kind allows ice making and even though warm days occur the previous night's work is not in vain, and the new arena should be appreciated by both town and country people.

And if the people do appreciate this fine memorial arena they ought to give some financial support to it at this time. At least another \$7,000 dollars is needed to provide all the necessary facilities at the rink and a campaign is now being conducted to raise the money. It is to be hoped the citizens of the community will respond heartily when asked for donations, and that the contributions will be generous.

Len Berscht Shoots Rare Albino Moose

Len Berscht was a successful hunter in his recent trip west of Innisfail and returned Sunday with an albino moose, the first such animal ever reported to have been shot by a Didsbury sportsman.

Len was hunting about 75 miles west of Innisfail with his brother, Russell, and another Innisfail hunter, and the party was successful in getting two moose and a deer. The albino moose shot by Mr. Berscht was almost a light grey, with white legs and white hooves. Other hunters had reported seeing the animal in the bush but the luck of getting it went to Len, who is proud of his achievement. He brought out the head, hide and hooves to prove that his game was really an albino moose.

Dairy and Beef Calf Club Members Honored at Banquet

Parents and members of the Didsbury Dairy Calf Club and the Beef Calf Club were guests of the Didsbury Lions Club at a lovely banquet on Thursday evening, November 18th. The ladies of the Didsbury Curling Club served a delicious meal to almost 120 people and an enjoyable evening's entertainment followed.

Ed Klink was toastmaster at the banquet and Tom Morris was chairman of the program committee.

Mr. F. Miller, principal of the Oids School of Agriculture, was guest speaker substituting for the district agriculturist, Mr. Hugh McPhail, who is attending the Toronto Royal Fair.

Miss E. Willison gave two comic selections, and vocal numbers were rendered by a mixed quartet comprising Jack Edwards, Ben Hopkins, Ezra Dippel and Miss Doreen Renne, accompanied at the piano by Ernie Clarke.

A consistent winner of prizes both in Alberta and the Dominion, Crystal Dairy Limited of Didsbury again scored top honors for butter makers by winning the championship at the Royal Winter Fair in Toronto last week.

Besides winning the championship, Crystal Dairy Ltd. of Didsbury won a special award for high net aggregate scoring in all main butter exhibits at the Royal Winter Fair.

Mr. J.W. Wordie, manager of the Crystal Dairy plant at Didsbury, and his staff, are to be congratulated on the excellent quality of butter being made in the large, modern creamery here, and the winning of numerous prizes both in Alberta and Eastern Canada not only goes to prove that the Didsbury Creamery is producing butter equal to the best in Canada, but also that the Didsbury farmers, who supply the cream are doing their part in maintaining a high standard of dairy cattle, which are capable of producing better-than-average butterfat.

GEOFFREY WADDINGTON

Ever since the early days of radio in Canada the name of Geoffrey Waddington has been synonymous with music. He is now music adviser to the CBC and conducts a large number of the corporation's music programs originating in Toronto.

MAIL EARLY FOR CHRISTMAS

H. Morgan, local postmaster, has announced that there will be no mail delivery Christmas Day. He has also stated that if residents want parcels delivered in time to reach the receiver before Christmas they should be mailed as follows: United States—before Dec. 9; Maritime Provinces—before Dec. 15.

Ontario, Quebec and Manitoba—before Dec. 15; British Columbia—before Dec. 16; Alberta and Saskatchewan—before Dec. 17.

Local Delivery—before Dec. 18. Letters for local delivery should be posted with a 3-cent stamp, and for rural routes and Canada and United States points they should be posted with a 4-cent stamp for the first ounce.

14.

DOUGLAS NIXON

Somewhere along the line before a program goes on the air from CBC's Vancouver studios, Douglas Nixon has a hand in it. He supervises the organization and presentation of the talks, musicals, dramas and forums. He also writes original scripts, adapts plays for radio and lectures to a night-school class in radio dramatics.

Steam Boat Race Depicted at Theatre

In the minstrel sequence of Warner Bros.' brilliant musical, "My Wild Irish Rose," with color by Technicolor, starring Dennis Morgan, which is showing at the Didsbury Opera Theatre this week end, the celebrated steamboat race between the Satchel and the Robert E. Lee is depicted on the Mississippi.

AN INDUSTRY IN 1907 — STILL AN INDUSTRY IN 1948

Mr. M. Weber's announcement last week that the Rosebud Flour Mill had again commenced the manufacture and shipping of Rosebud Pancake Flour is welcome news to many people both in western and eastern Canada who have come to rely on this famous product.

Mr. Weber built and operated the first flour mill in Didsbury in 1907. The original mill was burned in 1909 and rebuilt a year later, only to be again destroyed by fire almost forty years later, October 2, 1948. Undaunted by hardship and despite his more than three score and ten years, Mr. Weber has faith in Didsbury and his famous product, and with the help of his son-in-law, Jack Fleury, the plant is again manufacturing with only a six week's set-back in the new building near the old site. As time goes on Rosebud Flour Mill plans to enlarge the present structure and put in equipment to grind its own flour and thus eliminate the necessity of shipping it in from Wotsiswin, as it is being done during the emergency.

It is gratifying to know that the Didsbury Flour Mill will continue in operation, especially when the future of small flour mills seems doomed in many parts of Canada. However, it is only because the local flour mill, through the energy and foresight of its owner, has developed a product with sufficient demand to warrant its continued production that it is allowing Rosebud Flour Mill to rebuild and expand at this time.

The people of Didsbury and district should extend every encouragement to Mr. Weber in rebuilding the flour mill.

WEDDINGS

COLWELL-FISHER

A wedding of interest was solemnized at Central United Church, Calgary, on Monday, November 15, at 3 p.m. when Miss Marguerite Joyce Fisher, only daughter of Mrs. E.B. Grange of Didsbury, became the bride of Mr. Douglas Duncan Colwell, son of Mr. and Mrs. F. Colwell of Cremona. The church was decorated with rust chrysanthemums and yellow baby mums.

Dr. J.M. Fawcett of Calgary officiated at the ceremony.

Given in marriage by her brother, Hayden Fisher, the bride wore a beige gabardine suit with brown accessories, and a corsage of gardenias and sweetheart roses. The groom wore a matching gabardine suit.

The maid of honor, Mrs. Lloyd Jenkins of Didsbury, wore a blue gabardine suit with burgundy accessories and her corsage was yellow roses.

Mr. Emile Dupont Jr. of Didsbury was best man.

During the signing of the register Mrs. Frank Mertens of Calgary, accompanied by Mr. Otto Mueller of Ghost Pine Creek, uncle of the bride, sang "Till We Meet Again."

The wedding reception was held in the Harris Sky Room where the 40 guests were received by the bridal couple and their parents.

For her daughter's wedding Mrs. Grange chose a navy blue pleated suit with wine accessories and a corsage of Talisman roses. The groom's mother was attired in a blue gabardine suit with black accessories and a corsage of Talisman roses.

The bride's table was centered with a beautiful three-tiered wedding cake. Mr. Lloyd Colwell of Calgary, uncle of the groom, proposed the toast to the bride, to which the groom responded. Dr. J.M. Fawcett also proposed a toast.

Mr. and Mrs. Colwell left for the States and will travel as far as Santa Rosa, California. For travelling the bride donned a Kelly green coat over her bridal costume.

NEW RECORD FOR CANADIAN NEWSPRINT PRODUCTION

Canadian newsprint production in 1947, amounting to 1,417,000 tons, far exceeded that for any previous year. This was over 300,000 tons higher than in 1946, more than 1,250,000 tons higher than the average for the war years 1940-45, and nearly 1,500,000 tons higher than the average for the pre-war years 1935-39. This expansion was created in response to demand, mainly from United States publishers. It is estimated that production in 1948 will amount to 1,575,000 tons, while the forecast for 1949 is 1,675,000 tons.

Since 1939, only one new mill has been built in Canada, and only one new machine has been installed, this having replaced an old one. Between 1920 and 1935 the cost of a newsprint mill was estimated at between \$30,000 and \$35,000 per daily ton. Today it is estimated at around \$80,000 per daily ton, to which must be added woodlands expenditures on a scale unknown twenty years ago. A single newsprint machine, which could have been installed in 1920 for \$2,000,000, would today cost \$4,500,000.

After many years of pulpwood supply problems, present conditions are now generally satisfactory. Production in the 1947-48 cutting season was the largest in history, amounting to 11,100,000 cords in the Canadian area east of the Rocky Mountains for consumption by pulp and paper companies. An increase of 19 per cent over 1946-47 is attributed to more favourable weather conditions and an adequate labour supply. The total production consisted of 7,700,000 cords, cut by companies on leased Crown lands and their own forest holdings, and 3,400,000 cords purchased from independent pulpwood producers.

The record corn crop in the United States has farmers in that country scurrying around for material to build corn cribs. All kinds of materials are being used to get a dry floor and a roof that will keep the snow and rain off the corn.

Forestry Tour Units Stress Conservation

The Alberta Forestry Association operated two forestry tours in Alberta this year. One unit visited the National Parks and communities along the Eastern Slope of the Rockies. The other worked through the forest settlements in the middle-northern part of the province.

The Association field men, with motion pictures and lectures, contacted audiences ranging from world travellers and holiday guests in the famous resorts of Jasper, Banff and Waterton lakes, to bushmen, fishermen and settlers in the little-known, northern points visited. To every group was stressed the need for conservation of our natural resources with special emphasis on the importance of protecting our forests from wasteful destruction by fire. To the city dweller the forests mean a place of recreation and beauty, the guardian of hydro-electric power, the source of dozens of daily necessities and the backbone of many of our foremost industries. To the person in the forest community the forest is a source of income, a reservoir of moisture and a protection for his farm. A choroid and barren soil, and a forest of these vital needs. The forests of Alberta, like those in the rest of Canada, are owned by the people. Co-operation and understanding in the protection of this invaluable resource, must become the voluntary responsibility of every citizen. It is towards this goal that the Canadian Forestry Association's educational work is dedicated.

The acute shortage of skilled labor on farms is causing a shift from the production of livestock to the growing of grain on Canadian farms. This is the opinion of D.G. McKenzie, chairman of the board of grain commissioners. This trend may be followed by serious economic and social problems, Mr. McKenzie says.

Will Bequests \$100 Yearly to TB Fund

\$100 worth of Christmas Seals are to be purchased annually for more than ten years under the will of the late Mrs. Charles H. Powell of Calgary. It was revealed this week by E.C. Beattie, president of the Calgary Tuberculosis Association, sponsored by the Kinsmen Club, J. D. Wheatman, Calgary solicitor and A. B. Gravely are executors for the estate.

The Calgary organization is the agent in Calgary and district for the Tuberculosis Association, which carries on intensive anti-tuberculosis work in the province through surveys by the Christmas Seal mobile chest X-ray units, health education, vocational training and rehabilitation of patients, occupational therapy and many other forms of T.B. prevention measures.

E. H. Read, Drumheller, president of the Alberta Tuberculosis Association, said: "This bequest is the first important one we have received, although in Great Britain religious and charitable bequests are very common. I trust it will be the first of many. Thousands of Alberta families have made use of our services, and a great deal of money is required to keep them going."

Mr. Read said that the Hamilton (Ontario) Health Association had recently been willed \$200,000 by a Major William D. Wilson for T.B. education, research and rehabilitation work. He pointed out that the Alberta Association was entirely dependent on voluntary contributions through the Seal sale, and that if more money were collected, more work could be accomplished.

MOST HAZARDOUS INDUSTRY

Certainly no other major industry in Canada, and mighty few of the lesser ones face the weather hazard that agriculture must take in its stride, says a Financial Post editorial recently.

Just six months ago the three prairie provinces were literally waterlogged. Grain fell almost continuously and great areas along the rivers were flooded. But at last the sun shone, the weather turned warmer but fortunately not too warm and in most sections with the aid of modern machinery the farmer got his crops in and even a harvest that measured up close to average.

Now the situation has changed and over 60 million acres of rich prairie soil hangs the shadow of drought. Six months ago the farmer wondered whether the rains would ever cease, now he wonders whether they will ever start again.

Canadians are eating more butter than is being made in Canada and imported from Denmark.

There is danger of severe grasshopper damage in the prairie provinces next season. The worst infestation is in Saskatchewan.

No Fisherman Tries Just One Cast

Nobody expects to reel in a trout the first time he casts his fly. The good fisherman makes sure he has something the fish will take, picks out what should be the best spot and then makes one cast after another. Usually his patience is rewarded with a good catch to take home.

IT'S THE SAME WAY
WITH ADVERTISING

The wise merchant doesn't expect to reap a big harvest of customers on the first ad. Rather, he makes sure he is advertising something the people want, checks to see what paper reaches the most readers who have money to buy and reaches them with the news they most want to read, and then runs a carefully planned series of attractive ads. This wise merchant knows that only a series of casts will catch the fish, that only steady advertising will put him first in the mind of all prospective customers.

Fire recently did \$100,000 worth of damage to the co-operative horse meat packing plant in Swift Current.

Negotiations Opened For New British Food Contracts

The governments of Great Britain and Canada have opened negotiations with regard to food contracts for 1949. The results will be of primary importance to Canadian agriculture.

The 1948 bacon contract is for a minimum of 195 million pounds and a maximum of 225 million pounds at a price of \$36 per hundred pounds for Grade A Wiltshires at the Canadian seaboard. The contract expires December 31st, and it is expected that the export figure will reach 200 million pounds by that date. It is likely that the 200 million pound figure will be maintained for 1949 and a slight increase in price be arranged for to encourage hog production in Canada.

The beef contract was for 45 million pounds but only 15 1/2 million pounds were shipped up to last summer when the contract was amended by mutual consent. Payments totalled \$3,735,190.

Great Britain purchased half a million pounds of Canadian mutton at \$18 per hundred pounds at Canadian seaboard for a total contract value of \$92,700. It is not likely that this contract will be renewed. It is likely that the 200 million pound figure can buy her requirements in the sterling area (New Zealand and Australia), and Canada's surplus of mutton is not large.

The 1948 egg contract with Britain called for the delivery of 30 million dozen at 34 1/2 cents a dozen for spring eggs. This will probably be renewed.

The 1948 cheese contract called for the delivery of 50 million pounds at 30 cents a pound. This will probably be renewed.

The wheat contract is on a different basis. It calls for the delivery

of 600 million bushels of wheat during the four years ending July 31, 1950. In 1946-47 and 1947-48 exports were to total 160 million bushels annually and in 1948-49 and 1949-50 exports were to total 140 million bushels annually. The price for the first two years was \$1.35 a bushel, basis 1 northern at Fort William. The price for the current year 1948-49 is \$2 a bushel on the same basis. The price for 1949-50, the final year, has yet to be negotiated. It is reported that the Canadian government is asking an increase over the \$2 a bushel being paid this year.

REGISTERED SEED GRAIN

The Alberta Crop Improvement Association has established prices for registered seed grain that will cover the extra cost of producing and handling, plus a very moderate premium for the grower. Elevator agents throughout the province are taking orders for this registered seed.

There is a considerable quantity of good quality seed grain grown from registered seed which is also available from elevator agents at reasonable prices in truck or carlot quantities.

U.S. APPLE CROP

The 1948 United States apple crop in commercial areas, estimated by the United States Department of Agriculture at 100.4 million bushels, is 11 per cent less than in 1947 and 13 per cent less than the 1937-46 average. It is expected, therefore, that the 1948 average price will be somewhat higher than the \$1.77 per bushel received for the 1947 crop.

MAILS BEING DELIVERED BY HELICOPTER

Experimental night flights are being made in Britain by helicopters working on the delivery and collection of mails. These tests follow the success of trials made a short time ago on the daylight carriage of mails by helicopter. Experiments are being made by the British-European Airways Corporation in conjunction with the Post Office. During the last four months, helicopters have made 100 deliveries and collections over a range of 270 miles.

New Irrigation Project For The Sahara Desert

The French Colonial Ministry has undertaken an irrigation project in the wasteland of the Sahara desert in Africa which it is hoped will eventually bring an additional 1,500,000 inhabitants to that desert area. Plans call for the creation of 1500 new oases. The water is to come from deep wells which will tap a huge reservoir of water which underlies large areas of the Sahara and apparently holds almost unlimited supplies of water. Where the artesian water does not reach the surface, the government expects to put in power plants to generate electricity to operate the deep well pumps.

Already 200 of these oases have been created in a 200 mile strip five miles wide. The plan calls for each oasis to have a village with a planned population of about 200 families, or about 1,000 inhabitants. The villagers will live in prefabricated houses and each family will receive about 2 1/2 acres of irrigated land. As dates will be exported and become the money crop, the government is planting 120 date palms on each farm. Farms are leased to the tenants, chiefly Arabs.

OLDS SCHOOL DIVISION No. 31

— Notice Of —

ANNUAL MEETINGS For All Sub-Divisions

"Take notice that annual meetings of electors of school districts in all subdivisions of this School Division will be held as indicated below:

- Subdivision No. 1—Torrington School on December 6, 1948, at 2 p.m.
- Subdivision No. 2—Agricultural School, Olds, Main Building, No. M-2, on December 11, 1948, at 2 p.m.
- Subdivision No. 3—Cremora School on December 9, 1948, at 2 p.m.
- Subdivision No. 4—New Berghall School on December 7, 1948, at 2 p.m.
- Subdivision No. 5—Sundre School on December 10, 1948 at 2 p.m. (N)
- Subdivision No. 6—Lions Hall, Didsbury, on December 8, 1948, at 2 p.m. (N)

"At meetings marked (N), nominations for the office of divisional trustee will be received any time prior to the hour of 4:00 o'clock p.m. The subdivisions in which trustees are to be elected are Nos. 5 and 6.

"Forms J and K, to be used in making and consenting nominations, may be obtained from the Secretary of your local District, or from the undersigned

S. J. GILSON,

Secretary-Treasurer of the
Olds School Division No. 31
of the Province of Alberta,
Didsbury, Alberta.

U.S. BUTTER CONSUMPTION

United States 1948 butter consumption is estimated by the Bureau of Agricultural Economics at 10 pounds per person, the lowest on record,

compared with 11.2 pounds in 1947 and 16.4 pounds in 1912. Moving in the opposite direction, oleomargarine consumption increased from 1.4 pounds per person in 1912 to five pounds in 1947.

*When people everywhere agree on a product,
you know that product is good!*

All Canada Likes CHEVROLET'S Bodies by Fisher

DUSTPROOF • DRAFTPROOF • NOISEPROOF

More Value in Riding Comfort

Your own tests will show that Chevrolet has more riding comfort. That's because Chevrolet brings you Unitized Knee-Action — as well as Chevrolet's Big Car Body by Fisher — offered only by Chevrolet in the low-priced field!

More Value

in Performance and Economy

You'll enjoy lively, dependable performance — at lower operating costs — with Chevrolet. Chevrolet valve-in-head engines have delivered more miles, for more owners over a longer period, than any other automobile power plant built today!

Dust, noise, wind, heat, cold and engine gases all stay outside Chevrolet's super-insulated bodies. There's thick, asphalt-impregnated lining for roof, dash panels, side panels, floor and even trunk compartment. There's extra insulation in doors . . . extra insulation at seams and joints . . . extra insulation in the roof.

It is not by chance that Chevrolet's bodies by Fisher are so beautiful, so luxurious, so safe! Behind each body is forty years of motor-car coachcraft experience . . . forty years of building master bodies for precision-minded Canadians. To matchless craftsmanship have been added the methods and the metals of modern body engineering. Today, in your Chevrolet Body by Fisher, you are protected by steel welded to steel . . . you are cushioned by materials that add ease and relaxation to every driving mile. And to think that such body-comfort, such body-luxury, such body-safety is available, through Chevrolet, at lowest cost! It helps to explain why all Canada likes Chevrolet . . . why

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

More Value in Braking Efficiency

Knowing you have Positive-Action Hydraulic Brakes in your Chevrolet — specially designed to achieve greater brakelining contact — gives you a fine feeling of security when driving anywhere. The sure response of Positive-Action Hydraulic Brakes is exclusive to Chevrolet.

More Value in All-round Safety

You're extra safe in your new Chevrolet — guarded by the triple protection of Fisher Unitsteel Construction, Unitized Knee-Action Gliding Ride and Positive-Action Hydraulic Brakes. Such super-safety engineering is a Big Car feature found only in Chevrolet among low-priced cars!

First Aid Hints For Miscellaneous Injuries

FOREIGN BODY IN THE EAR CHANNEL

If an insect is in the ear channel, fill the ear with olive oil, when the insect will float and may be removed. Otherwise make no attempt to treat the patient with a foreign body in the ear, but take him to a doctor as soon as possible; attempts to remove the foreign body may lead to fatal consequences. If a child cannot be induced to keep the fingers from the ear, tie his hands to prevent his pushing the foreign body further. Never syringe or probe the ear.

FOREIGN BODY IN THE NOSE

Instruct the patient to breathe through the mouth. Do not interfere with the foreign body, but take him to a doctor at once.

FOREIGN BODY IN THE STOMACH

Pins, and other small, sharp objects, may be accidentally swallowed. Give nothing by the mouth, but take the patient to a doctor at once. Smooth objects such as coins or buttons need not cause alarm.

FROST BITE

Wind and constricting clothing will make the tissues freeze more readily. Moisture on the skin, and air heavily laden with moisture, will make the tissues freeze more readily, that is — the tissues will stand a much lower temperature in dry air than in moist air, before freezing takes place.

TREATMENT: 1. Slow thawing. 2. No rubbing. 3. No moisture. 4. No snow.

SUGGESTED BY
THE BREWING INDUSTRY OF ALBERTA

Port Nelson Industrial Machinery to be Scrapped

THE P.A.S. Man-It plans of the recently-formed Port Nelson Salvage Company of Toronto materialize, the entire "ghost village" of Port Nelson on the shores of Hudson Bay will be dismantled and shipped south to help alleviate Canada's shortage of structural steel and building supplies.

Discussions are going on between company officers and freighting experts of northern Manitoba regarding the problems involved in moving the village—including a 17-span bridge—to Mile 352 on the Hudson Bay railway. Port Nelson is 60 miles from the railway which once served it.

Largest single project would be moving the bridge, which connects the mainland with an artificial island and dropped into Hudson Bay from the end of the massive structure as a landing platform for deep water vessels.

Drifting silt caused the abandonment of Port Nelson's harbor in favor of the port of Churchill.

During the First World War when the ice-cream hotel and the neat dwellings were new, tracks connected Port Nelson with the Hudson Bay railway near Weir river. The tracks were torn up long ago to swing toward Churchill. It is over this route that a fleet of tractor swarms would haul between 7500 and 9000 tons of steel and lumber.

It is reported the salvage company has purchased the port from the federal government.

The firm hopes to freight out to the railway this winter 2500 tons of unprocessed building material, and bringing the remainder out over next winter's lee.

SOW THE BEST ONLY

Grain which is to be used for seed must be cleaned thoroughly. On the farm, the time-honored fanning mill is relied upon to remove all light grains, weed seeds, other kinds, as well as diseased bodies such as rat and ergot. To do this the screens and sieves must be of appropriate size, be properly slanted and must not sag or bulge. The blast or fanning part must be properly adjusted and be strong enough to remove all grains slightly lighter than average, thus doing away with all seed which did not develop normally because of diseases or other reasons. For best results, feed the fanning mill slowly and repeat operations as often as necessary. Sow the best only is a good rule with seed.

Farmers to Fill Out Dec. Questionnaire

During the last week of November farmers throughout Canada will again be receiving the annual December questionnaire concerning livestock, poultry, farm labour and acreages on their own farms. The questionnaire is being sent out by the Agricultural Division of the Dominion Bureau of Statistics in co-operation with the provincial Departments of Agriculture. The answers given by farmers to the questions on the forms will provide the basis for estimating the numbers of live stock and poultry in Canada at December 1, 1948, together with marketing and farm kill of livestock during the last six months. Estimates of farm labour and acreages seeded and harvested will also be obtained from the returns received.

The success of the survey and the accuracy of the agricultural statistics published by the Bureau and the several provincial Departments of Agriculture depend on the co-operation of farmers in filling out and returning the questionnaires. A wide-spread response from all types of farmers throughout each province is needed in order that the statistics can be based on a sufficiently large number of reports from a representative sample of farms throughout Canada.

The statistics obtained from the survey are used extensively throughout the year. The Dominion Bureau of Statistics is the official source of statistical information in Canada and its figures are used by governments, farm organizations and industry to plan future operations. International organizations such as the world Food and Agriculture Organization depend on the Bureau to supply up-to-date figures on Canada's agricultural industry. The farmer, through his response to the questionnaires sent out by the Bureau has a real opportunity to help form a true picture of agricultural conditions, and it is in his own interest to do so.

The survey has no connection with taxation. The farmer's individual form is seen only by workers in the Dominion and Provincial agricultural statistical offices and the farmer is protected by law against the wrong use of his return. All individual forms are kept strictly confidential.

Branch Plants Aid Adverse Canadian Trade Balance

"Branch plants, originating in Great Britain, the United States and other countries, have contributed substantially to the reduction of Canada's adverse balance of trade with the United States in the first nine months of the current calendar year, from \$729 millions to \$275 millions, and to the creation of a favourable balance in September," stated G.D. Malloy, Director of the Industrial Development Division, Department of Trade and Commerce, in an address delivered recently to members of the Edmonton Chamber of Commerce.

These branch plants can supply an expanding domestic market, thus diminishing the value of imports from dollar countries, but they can also add to Canada's line of exportable manufactures to the United States, and other hard-currency markets, further increasing this country's dollar income. Substantial reductions are being made in the import content of such Canadian products as automobiles, refrigerators, and radios. In addition, Canada is now producing many commodities that were formerly imported, such as jet engines, tapered roller bearings and ethylene glycol, and is slowly reversing the flow across the border of such items as optical goods, high carbon drill bits, stainless steel equipment and noiseless typewriters.

Some two thousand American branch plants and their affiliated industries are now established in Canada. Mr. Malloy declared. About half of these are manufacturing establishments, the remainder being engaged in finance, insurance, shipping and other services. The capital investment of these branch industries exceeds two billion dollars.

Some 150 British subsidiary firms have been established in Canada, having a reported capital investment of over \$600 millions. A further twenty-five have been established in this country during the past year.

Purr in Engine Comes from Cat

LOS ANGELES—The No. 2 engine of the T.W.A. Constellation just in from Chicago was purring mightily pretty, thought airport mechanics.

But they pulled the cover and out jumped a grey cat.

The animal obviously had crawled into the nacelle for a catnap. He appeared in good shape after the 1800-mile trip.

OUTBOARD GEAR SHIFT

Outboard motor with gear shift control giving forward, neutral and reverse settings is latest development of motor firms. Engine has rating of 10 h.p. at 1400 r.p.m., weighs 26 lbs., has 5-gallon gasoline tank which can be hooked up to motor with 12 foot flexible fuel pipe. Other features of the motor are one-lever speed control and underwater exhaust.

—: DISTRICT NEWS:—

BERGEN NEWS

The local school has been closed for two weeks while the teacher and many pupils recover from the measles.

Congratulations to Mr. and Mrs. George Admussen on the birth of a daughter Nov. 13. Word has also been received from Winnipeg that a son, Harvey William, was born to Mr. and Mrs. Jan Gamble on November 14th, the same day as the Royal Prince.

Mr. and Mrs. Andrew Lund of Bergen have announced the engagement of their only daughter, Sylvia, to Mr. Leo Nickerson, son of Mr. and Mrs. E.J. Nickerson of Dapp, Alberta. The marriage will take place in Edmonton on December 10. Sylvia and Leo were visitors here this week end.

Bill Gamble has arrived here from McGee, Sask. He intends to work here for the winter months.

Miss Bette Davidson was home from Calgary for the week end. Another old timer is leaving the Bergen district. Mr. Thomas McElae sold his farm this week to Erling and Fritz Erickson. Mr. McElae homesteaded here in 1906, driving with his wife with team and democrat all the way from Montana. They intend to take a trip to the coast and may settle in Olds.

CREMONA ITEMS

Mrs. S. Schultz and Mrs. Brian sailed for England on Saturday, November 13th. They plan on visiting many friends and relatives during their stay, and all their friends wish them bon voyage.

Congratulations to Mr. and Mrs. Norman Whitlow on the birth of a daughter, Judith, on Saturday, November 13th, and to Mr. and Mrs. Adam Leinweber on the birth of a son, James, on Monday, November 15th.

Mr. and Mrs. B. Tippe held their wedding dance on November 11th and Mr. and Mrs. C. Bird held their wedding dance on November 17th. Miss Thelma Luft is now employed in Holbrook's general store.

Miss Rita Wilson is employed in the Red and White store. Mr. and Mrs. Wilf Carter and small daughter, Carol, left last week for a trip to New York. During their absence Mrs. K. Bergeson has charge of their eldest daughter, Sheila.

The show this week was a double feature 'Fighting Mad' and 'Rocky'. These two shows also showed at Water Valley Friday evening.

A dance to raise money for Christmas tree funds for the Graham Christmas concert was held in the Graham school on Friday evening.

The sympathy of the district is extended to Jake Wiebe on the death of his mother.

UNITED CHURCH SERVICES

Sunday services at the United Church will be held as follows:
Didsbury: 11 a.m.—Church school for all ages. 7:45 p.m.—Evening worship. Infant dedication service. Music led by choir. 9 p.m.—Talkie Film "Western Hands are Sure" the story of Lamont Hospital, Alberta. This missionary project is under the auspices of the Y.F.U.

Westcott: 11 a.m.—Morning worship followed by church school.
Westerdale: 3 p.m.—Public worship with story for children.

Rev. J.W. Bainbridge, M.A., B.D., Minister

MOUNTAIN VIEW

The November meeting of the Mountain View W.I. was held at the home of Mrs. Shultz with seven members and three visitors present. Community hall business was discussed and then plans for the coming bazaar were furthered. The bazaar and whist drive will be held in the community hall on Friday, December 3rd at 8 p.m. There will be a fish pond for the kiddies and a good turn out is anticipated. Come and bring the whole family.

All institute members are required of their bazaar items, either baking or hand work, and any finished items should be turned in to Mrs. G. Bittner. All members are also asked to bring a cake or cookies for lunch which will be served that evening, and any small knick-knacks for the fish pond would be appreciated.

Christmas gift names were exchanged and the ten-cent draw was won by Mrs. Booker. Five dollars was donated to the War Amps Fund and it was discussed that in the neighborhood of \$150 was collected for the Cancer Fund. However, all collections haven't been reported so the exact amount cannot be given at this date.

The annual meeting will be held on Wednesday, December 1st at the home of Mrs. Ed Blain in town and all members are requested to make an effort to attend. Besides the usual business, last minute plans for the bazaar will be made.

Mrs. Raymond Hayne, Mrs. John Bruce and Mrs. Dwayne Fobes were visitors at the home of Mrs. J. Worrall on Friday.

Mr. and Mrs. Lloyd McCall and family of the city were visitors Sunday at the home of Mr. and Mrs. Grenville McCall.

Jake Warkentin of Calgary spent the week end with the W. Shultz family.

Mr. and Mrs. W. Shultz and family took in the C.W.L. chicken supper at Olds on Saturday evening.

Mr. and Mrs. E. McNeil spent Sunday visiting at the W. Shultz home.

Mr. and Mrs. E. Rogers and family, Mr. and Mrs. Johnny Brander and daughter and Mr. and Mrs. E. L. St. Clair and family, and Alice Bruce were dinner guests on Sunday with Mr. and Mrs. W. Bruce. Mr. and Mrs. Ray Elliott of Lethbridge were week end visitors of Mr. and Mrs. Barney Elliott.

Mr. and Mrs. Bob McCulloch spent Tuesday in Calgary, and left Thursday for about a week on a trip south.

Mr. and Mrs. L. Hunter, Mr. and Mrs. J. Worrall and Mrs. Wood of Calgary who is spending a week with the former, visited Sunday with Mr. and Mrs. Parsonage of Innisfail.

Mr. and Mrs. L. Hunter took in the alumni dance at the Olds School of Agriculture Friday night.

NOTES FROM EAST

Mr. and Mrs. Harry Richardson were Sunday visitors at the J. D. Thomas home, along with Mr. and Mrs. Kevin Hall and family of Innes, and Miss Dorothy Thomas of Vancouver, the latter visiting at her father's home.

Mrs. Hilda Dawson of Sunnyslope was a week end visitor in Calgary. Mr. and Mrs. Sam Elliott were Sunday callers at the J.D. Thomas home.

Fred Metz returned Wednesday evening from Calgary where he spent three days attending the Municipal convention, and he reports having a splendid time.

Mr. J.D. Thomas was a Tuesday evening visitor at the Fred Metz home.

There will be a dance at the Lone Pine hall on November 24th with Kiebo orchestra supplying the music. This dance is being sponsored by the Lone Pine W.I.

The Lone Pine W.I. meeting was held Saturday, November 13th, at the home of Mrs. Eckel in Didsbury. The meeting opened by singing two songs, and 15 members answered roll call with a "favorite song or poem." The usual business was completed and a \$10 donation voted to Woods Christian Home. Thanks was extended to the women who canvassed for the Cancer Fund.

PROGRAM AT E. V. CHURCH

A musical program will be given at the Evangelical Church on Friday evening, November 26th, at 8 p.m. There will be musical selections on various instruments, and songs in solos, trios, quartets, etc. An interesting program has been prepared, which you will not want to miss if you are a lover of song and music. Proceeds in aid of the needy in war-torn Europe.
